### **Geotex Celebrates Office Expansion with Open House and Local Whiskey Tasting**

**Denison, TX - November 11, 2024.** Geotex Engineering (Geotex), a leading geotechnical engineering and materials testing firm, recently welcomed clients, community members, and industry partners to explore the company's expanded Denison Office. The celebration also included a whiskey tasting provided by Denison's Ironroot Republic Distillery.

Hosted at the company's office on Texoma Parkway, the November 7<sup>th</sup> open house invited guests to explore the newly renovated and expanded office, featuring upgraded workspaces, testing labs, and collaborative areas designed to enhance teamwork and efficiency. The renovations underscore Geotex's commitment to customer service, enhancing the firm's ability to deliver responsive support to clients in various industries.

"We're excited to reveal our expansion and celebrate with the community that we've been honored to serve for 14 years," said Geotex President Amy Brothers, P.E. "This update represents a major investment in our team and strengthens our ability to serve our Grayson County clients."

The event included guided tours, showcasing the firm's testing capabilities. Adding a unique local touch to the evening, Ironroot Republic Distillery hosted a whiskey tasting, where guests enjoyed a curated selection of whiskeys. The tasting created a warm, memorable setting for networking and connecting with the Geotex team and other attendees.

## **About Geotex Engineering LLC**

Geotex Engineering, LLC is a DBE certified engineering firm that provides geotechnical and construction materials testing services for education, municipal, water, transportation and commercial projects. For nearly 15 years, Geotex has helped clients build and improve schools, roadways, developments and infrastructure systems in communities across North Texas and Southern Oklahoma. Geotex engineers, project managers, technicians and testing laboratories maintain extensive industry certifications through comprehensive training and QA/QC programs.
