Geotex Celebrates 15th Anniversary

Collinsville, TX - February 20, 2025. Geotex Engineering (Geotex), a leading woman-owned engineering firm specializing in geotechnical engineering and construction materials testing, is proud to celebrate its 15th anniversary this year. Since its founding, the company has earned a reputation for responsive service, innovative solutions, and a steadfast commitment to quality.

Since 2010, Geotex has provided reliable, cost-effective engineering services to clients across North Texas. In 2024, the firm experienced an impressive 33% growth rate and built enduring client relationships, with 89% of its revenue coming from repeat business. This milestone marks not only the company's success but also its dedication to excellence and customer satisfaction.

"On behalf of our leadership team, I want to extend our thanks and appreciation to our employees, customers, and partners," said Amy Brothers, P.E., President of Geotex. "Your continued confidence and trust have been essential to our long-term success, and I look forward to reaching new heights together as we embark on our next fifteen years."

In celebration of this anniversary, Geotex is launching the 15 for 15 STEM Scholarship Program, awarding scholarships to 15 local high school senior girls in partnership with 15 client school districts. This initiative reflects the company's ongoing commitment to

empowering the next generation of women in engineering and STEM fields, encouraging young women to pursue careers in industries traditionally underrepresented by females.

"We are thrilled to celebrate this important milestone and to give back to the community that has supported us over the years," said Amy. "The 15 for 15 STEM Scholarships are a meaningful way for us to inspire the next generation of female engineers, and we are excited to continue fostering opportunity, innovation, and leadership in our industry."

As Geotex looks to the future, the firm remains focused on its mission to provide the highest level of service to clients while continuing to foster an environment of growth, innovation, and leadership. With a legacy of quality and a strong vision for the future, Geotex is poised for continued success in the next chapter of its story.

About Geotex Engineering LLC

Geotex Engineering, LLC is a woman-owned, DBE-certified engineering firm offering geotechnical and construction materials testing services for education, municipal, water, transportation, and commercial projects. For 15 years, Geotex has helped clients build and enhance schools, roadways, developments, and infrastructure systems in communities across North Texas and Southern Oklahoma. Geotex engineers, project managers, technicians, and testing laboratories maintain extensive industry certifications through comprehensive training and quality assurance programs.
